

Driving at night

Preparation

- Clean windows and mirrors
- Check and clean all lights
- Only wear clear, untinted, spectacles or contact lenses
- Give your eyes time to adjust if leaving a brightly lit building

When driving

- Take special care to look for pedestrians
- Use dipped headlights
- Watch your speed
- Dip your lights early to avoid dazzling other road users
- Beware of animals on country roads
- Keep well back to avoid dazzling drivers in front

Stopping

- Stop on the left (except in one-way streets)
- Switch off headlamps
- Use parking lights where there are no street lights
- Park well away from junctions

If dazzled

- Slow down or stop
- Look towards the left-hand kerb
- Keep your lights dipped

Road edge markers

Red reflectors
on the left

White reflectors
on the right

Brake lights can dazzle, especially in the rain. Use the handbrake when waiting in queues and at junctions!
